Subject: PSC Website Comments:

The constant increases in energy charges to customers that you people approve for SCE&G amazes me. It seems that all of their requests are automatically approved. What are they doing with all of this money? No doubt they lack good management skills. Where is their good planning or budgeting? Is it a scam just like Cap and Trade?

Don't you people know that so many SCE&G customers are having the most difficult financial times of their lives? The poor are subsidized but working middle class families having a difficult time. Please see what you are forcing on these SCE&G customers.

Thanks for your time.
